FIRST HINDOO TEMPLE.

SAN FRANCISCO, April 6.—The first Hindoo temple in the western world, according to the San Francisco Vedanta Society, was dedicated last night in the new building at the corner of Webster and Filbert Streets. The edifice is unique in a western city, being modeled after the great Taj Mahal of India. The arches are moorish, the symbols being expressed by different lights.

The towers, of which there are four, each stand for a spiritual quality easily recognizable by those versed in the Hindu faith, and the most important tower has been placed on the northwest corner, in conformance with the traditions attaching to that point of the compass.

Hot Stove—Cool Kitchen

How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?

You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room. Therefore, when working with the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

the kitchen actually seems as comfortable as you could wish it to be.

This, in itself, is wonderful, but, more than that, the "New Perfection" Oil Stove does perfectly everything that any stove can do. It is an ideal all-round cook-stove. Made in three sizes, and fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp

a substantial, strongly made and hand-some lamp. Burns for hours with a strong, mellow light. Just what you need for evening reading or to light the dining-room. If not with your dealer, write our nearest agency.
